When winter hits, our hiking trails become a destination for snowshoers and cross-country skiers alike. You can explore our mountainous terrain, or wax up and hit the wide, gentle trails at the VIC. To spend a week doing some family-friendly downhill, there’s no place like Titus Mountain.

Malone’s expansive snowmobile trail network connects riders with hospitable communities that have amenities like food, gas, and lodging. That’s great, because the trails themselves offer tons of options for day-long rides or quick out-and-back adventures.

In summer, our lakes are dotted with sailboats. Open water means ice fishing come winter, so bundle up and visit the Malone Region when temperatures drop, then get ready to hunker down. We can’t promise you’ll reel in a trophy fish, but you will have lots of lakes to choose from.
